²Recirculating kit can only be used in conjunction with DRIB XL 700 CFM Internal Blower

INSTALLATION SPECIFICATIONS

- Drain -** 4 ft 11 in (1.5 m) flexible drain hose.
(Connects from lower center rear)
- Water -** 4 ft 11 in (1.5 m) flexible water intake hose with 3/8" compression fitting.
(Connects from lower center rear)
- Electric -** 4 ft 11 in (1.5 m) 120V 15 A 3 wire molded NEMA 5-15 plug power supply. (Connects via Front End Supply or may be hardwired)

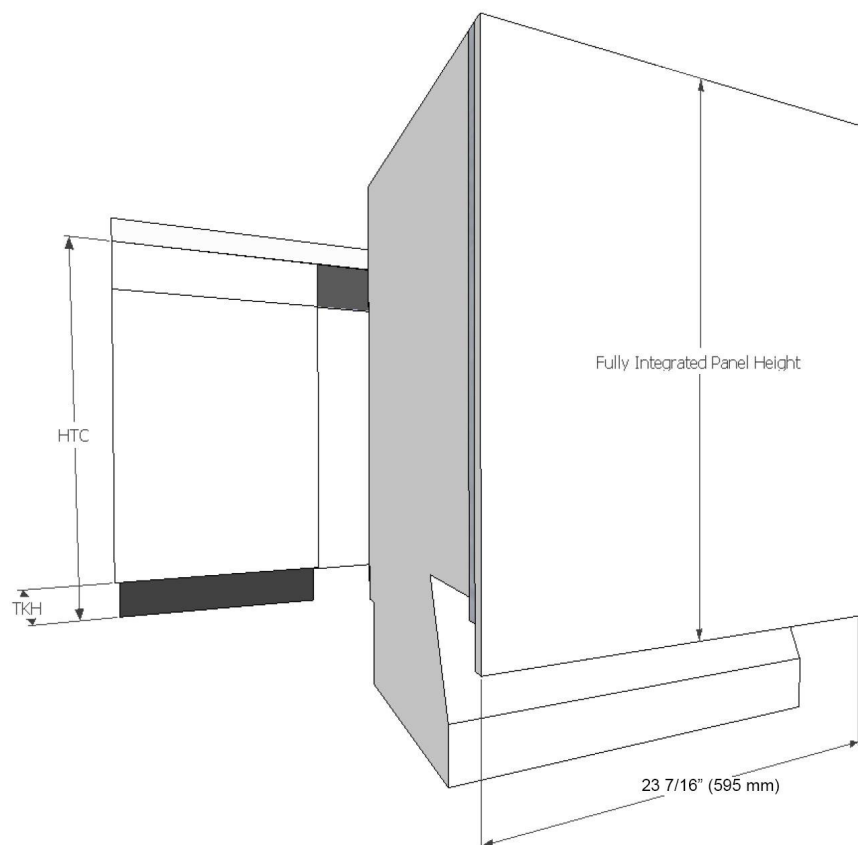

EcoFlex Series

Fully Integrated Dishwasher

Custom Panel Installation

Some Miele dishwashers do not come equipped with a front panel. These dishwashers are designed to accept a custom door panel supplied by a cabinet maker. Miele has a unique panel integration system which allows the dishwasher to align with the surrounding cabinets.

Width: 23 7/16" (595 mm) in all Cases
Thickness: 3/4" (19 mm) in all Cases
Height: Determined using the following calculation:

$$\text{Panel Height} = \text{HTC} - \text{TKH}$$

HTC = Height to the underside of countertop
TKH = Toe kick height

Note: Control panel is along the top edge of the unit. It is not visible when the unit is closed. A handle **MUST** be located on front of panel in order to open unit. (Except K2o models).

Maximum panel height: 31 7/8" (810 mm)

Minimum panel height: 27 1/8" (690 mm)

Maximum panel weight: 21 lbs (9.5 kg)

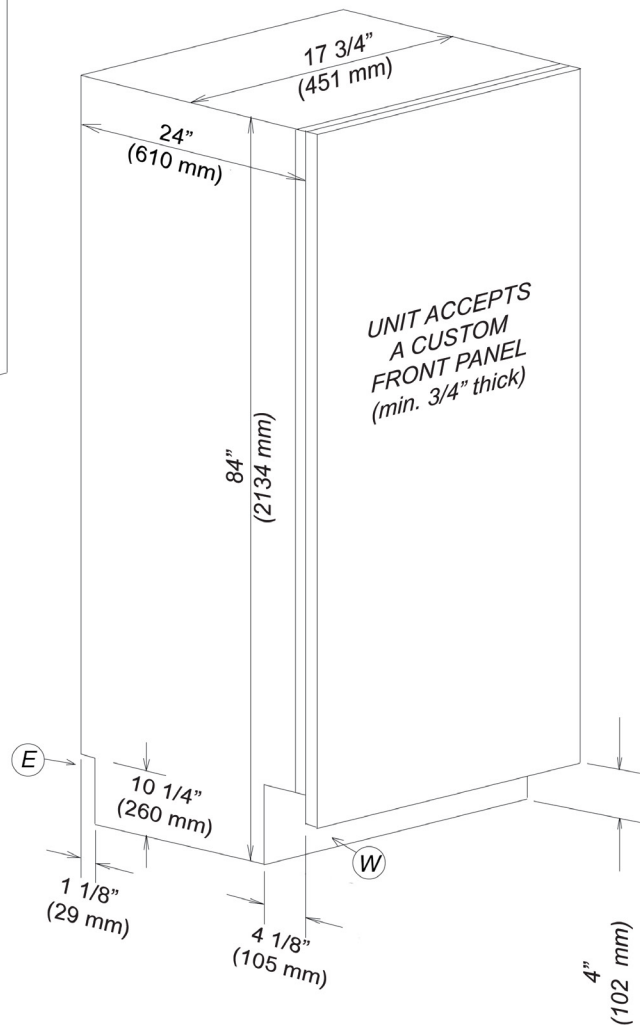

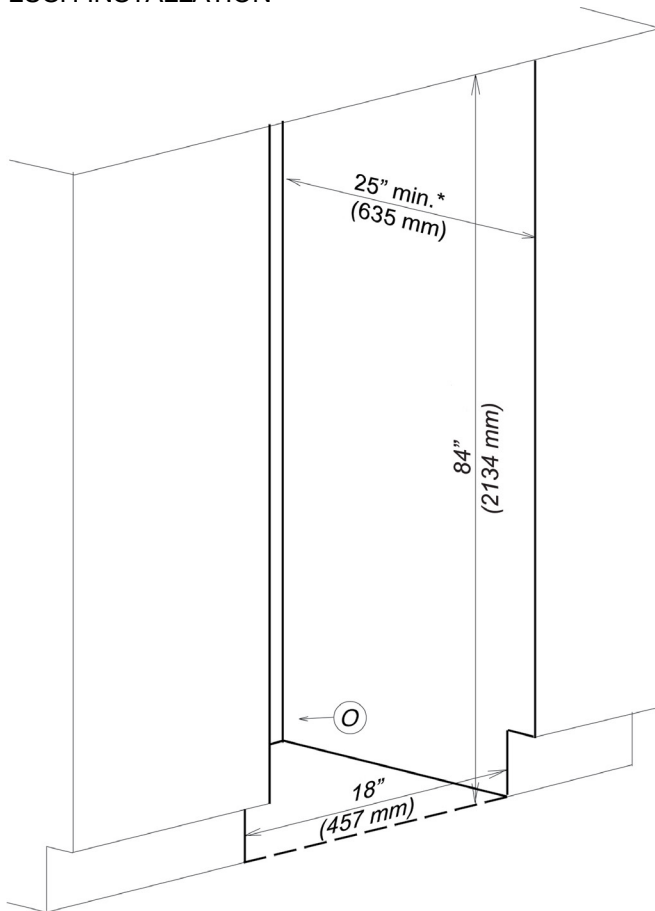

GFVI Installations

Miele offers pre-fabricated stainless steel panels for all fully integrated units. These panels are designed for various toe-kick heights and offer a choice of handle options. See Miele Product Brochure for more info.

For Knock2open (K2o) models, an additional kit is required for use with stainless steel panel. Please contact Miele for further details.

Fully Integrated 18" Freezer with Internal Ice Maker F 1413 Vi

FOR FLUSH INSTALLATION

* Niche depth assumes a 3/4" (19 mm) panel, please adjust according to custom panel thickness

Location Codes

- E - 5 foot - Nema 5-15 molded plug power cord - connects lower left rear
- O - Standard NEMA 5-15 Outlet - locate less than 9" above finished floor
- W - 1/4" flexible water line - not included

Notes

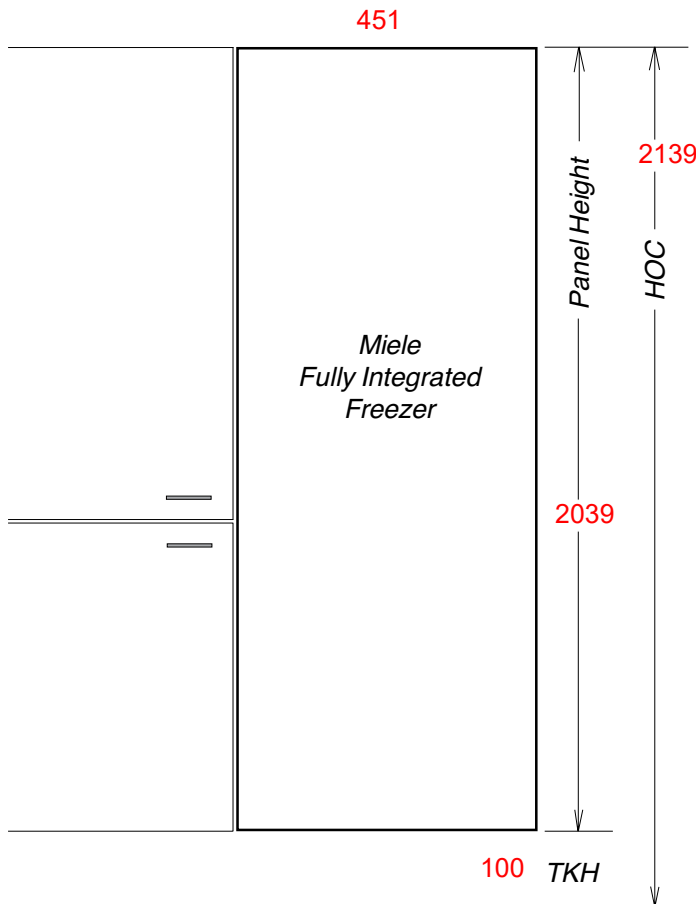

- All Installations must be done in accordance with local codes
- Sides of adjoining cabinets should be filled (flush to frame) to insure proper fit and finish
- For side-by-side installation please refer to the Miele merging kit specification sheet - Some merge kits will require the location of the Electrical outlet(s) to be in adjacent cabinetry
- If design calls for a partition less than 6 5/16" (160 mm) the left unit's cutout will require an additional 1/8" (3 mm) to the width to allow installation of the Heating Mat.

Fully Integrated 18" Freezer with Internal Ice Maker F 1413 Vi

CUSTOM INSTALLATIONS

These units do not come equipped with a front panel. They are designed to accept a custom door panel supplied by the cabinet maker. Miele has a unique panel integration system which allows the panels to align with the surrounding cabinets.

Panel size is determined in the following manner:

Width: 17 3/4" (451 mm) in all cases

Thickness: Minimum 3/4" (19 mm) outside frame

Height: Determined using the following calculation:

$$\text{Panel Height} = \text{HOC} - \text{TKH}$$

HOC = Total height of cabinet or side panel

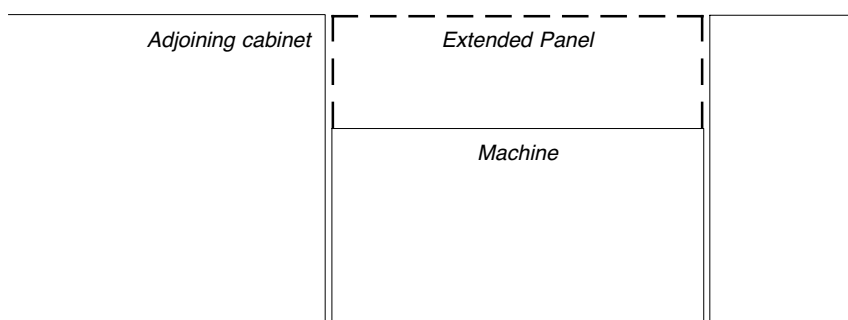

TKH = Toe-kick height

Note: Finish back side of panels to insure appearance
Panel may extend above unit. This is **not** considered in height calculation

Maximum panel weight: 123 Pounds

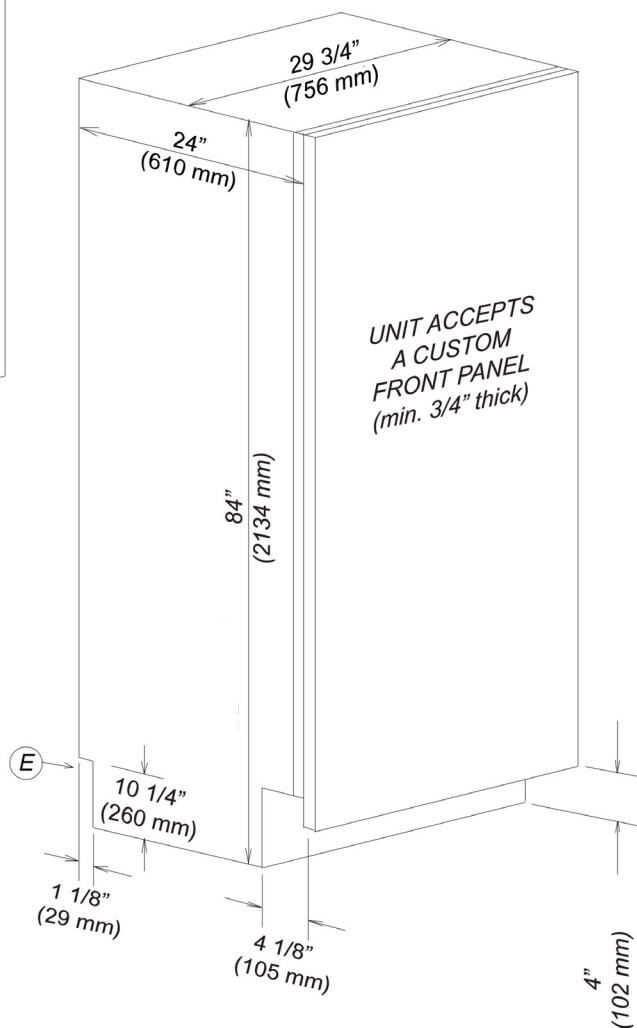

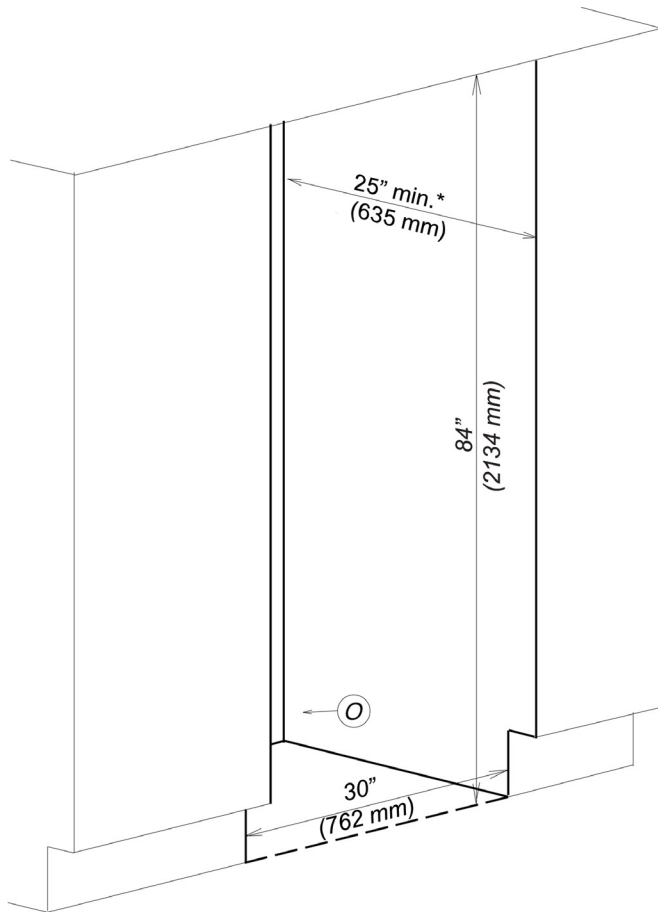

Panel Notes

If the adjoining cabinets are taller than the height of machine (HOM) - the front panel may be extended accordingly. Simply maintain the toekick height and extend the panel the needed distance.

Fully Integrated 30" Refrigerator K 1813 Vi / K 1803 Vi

FOR FLUSH INSTALLATION

* Niche depth assumes a 3/4" (19 mm) panel, please adjust according to custom panel thickness
