Warming Drawers

DRAWER FRONT OPTIONS

Wolf warming drawer fronts allow for many design options, but the warming drawer itself will be the same for all applications. A panel mounting kit is required when installing a custom panel. The panel mounting kit is available through an authorized Wolf dealer. For local dealer information, visit the find a showroom section of our website, [wolfappliance.com](http://wolfappliance.com).

The 2" (51) thick drawer front, in 30" and 36" widths, is designed to be installed below a sealed burner rangetop or outdoor gas grill, so the panel aligns properly with the front of the rangetop or grill. Dimensions for the warming drawer remain the same, even though the drawer front may be wider to match a Wolf 36" oven, sealed burner rangetop, or outdoor grill.
